

# POWERCREW™

## IN-BOX POWER SOLUTION

### Model 500 PowerCrew™ In-Box Power Solution

**PowerCrew™** In-Box Power Supply by KNAACK® is the industry-exclusive solution for worry-free power supply. With **PowerCrew**, tools and equipment stay in the box and one power cord feeds into the weather-protected opening, virtually eliminating the risk of shocks and fires.

Use PowerCrew to charge batteries and tools inside the jobsite box.

No more cutting a hole in a jobsite storage box and running power cords through to charge your tools. With PowerCrew, you have a much safer, weatherproof, shock-proof alternative. And, best of all, it fits any brand of jobsite box.

- Complies with OSHA recognized test standards and is UL listed
- Model 500 works with **ANY BRAND** of jobsite storage equipment box
- Permanent, weather-resistant installation in **ANY TYPE** of jobsite storage box in minutes with basic tools
- Provides 4 GFCI-protected outlets
- 15-amp fused power for most tools and chargers
- Internal relay provides open neutral protection
- Accepts standard 3-prong/straight blade extension cords
- Replaceable fuse protects against current overload
- Red LED indicates power to outlets

Use PowerCrew on **ANY BRAND** of jobsite box.

Use PowerCrew on **ANY TYPE** of jobsite box (chests, work stations, piano boxes and more).
